### **Mission & Values**

Our Mission – Creating opportunities and solutions with quality products and exceptional people

Our Values – Profitability the right way... Integrity, Accountability, Excellence

### **Primary Job Function:**

Maintain an efficient, safe, stable, clean environment in accordance with company policies and procedures, standard practices and safety regulations, in a safety sensitive position. Operate wash plant systems to clean material and convey to designated areas. Must be able to direct and delegate to employees assigned to the wash plant.

**Please see below a brief summary job description.**

### **Essential Requirements:**

- Wear required safety equipment including but not limited to hardhats, safety glasses, safety harness, ear plugs, dust masks and gloves
- Physically capable of climbing up and down, above, inside and under equipment
- Able to perform shoveling
- Capable of doing repetitious arm, hand and leg motion
- Stand or sit for considerable amounts of time
- Lift up to 80 pounds safely
- Able to work various schedules including overtime, holidays, call outs and weekends as needed
- Work in inclement weather when required or as assigned
- Required and predictable attendance

### **Knowledge, Skills and Abilities:**

- Three to five years experience in aggregates industry preferred
- Experience in the washing or crushing of materials preferred
- Willing to relocate with company equipment
- Able to multi-task and make decisions under pressure
- Possess steel toed shoes and hand tools per the Aggregate tool list
- Able to read, write and communicate clearly for documentation and customer relations

### **Duties and Responsibilities:**

- Know and follow company safety procedures and policies with or without supervision
- Follow Company policies and procedures
- Operate equipment in a safe manner
- Complete Pre/Post Inspection sheet daily
- Start up and shut down equipment in proper sequence per safety instructions
- Observe operation of washing equipment and flow of material through system
- Direct unloading of aggregate haulage trucks at the wash plant
- Direct labor crew when necessary
- Feed material into wash plant at proper rate for best quality assurance
- Inspect equipment and check lube system as directed
- Start and stop sampling cutter as necessary
- Maintain flow of material through washing and conveying system
- Direct crusher loader operator to mix and attend surge piles as required
